INVESTMENTS PER

\$2,500

Project Overview:

Economic development has been a priority of MIBOR REALTOR® Association for many years. Dating back to the early 1990s, MIBOR became involved with economic development efforts in central Indiana because of the valuable connection of economic development and housing strategies.

MIBOR currently invests in eight local economic development organizations (LEDOs) around the region. By supporting the LEDOs, REALTORS® gain a seat at the table to help shape decisions on housing and the local economy.
